

CHIRAYU LOKHANDE

Python Developer | AI/ML Enthusiast | Fresher

chirayulokhande02@gmail.com | +91 7024882778 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Recent B.Tech (Computer Science and Engineering) graduate with a strong foundation in Python programming, object-oriented concepts, SQL, and Git/version control. Hands-on academic and internship experience building data-driven applications, dashboards, and Retrieval-Augmented Generation (RAG) / AI-based systems. Quick learner with strong analytical and problem-solving skills, eager to contribute to application development, automation, and AI/ML initiatives in a collaborative team environment.

SKILLS

Programming & Core CS: Python, Object-Oriented Programming (OOP), Data Structures & Algorithms, SQL, MySQL, Git/GitHub, SDLC

AI/ML & Generative AI: Scikit-Learn, XGBoost, Predictive Analytics, Model Evaluation, LangChain, Google Gemini, RAG, Qdrant, HuggingFace Embeddings

Data & Automation: Pandas, NumPy, Data Cleaning, EDA, Statistical Analysis, Feature Engineering, Automation Scripting

Cloud & API Development: FastAPI, REST API Integration, Exposure to Azure/AWS/GCP

Visualization & Tools: Power BI, Tableau, Advanced Excel, Matplotlib, Seaborn, Plotly, Streamlit, Jupyter Notebook

EXPERIENCE

Data Analyst Intern, Unified Mentor (Remote)

Apr 2025 - Jun 2025

- Analyzed datasets using SQL and Excel to identify trends, KPIs, and business insights.
- Built Power BI dashboards and applied data cleaning techniques to support accurate reporting and decision-making.

PROJECTS

Apple Product Intelligence Center

[GitHub Repo](#)

Live Demo: [apple-price-intelligence.streamlit.app](#)

- Designed and developed an AI-powered platform to analyze Apple product pricing trends, discounts, and market intelligence across multiple categories.
- Implemented interactive dashboards, an XGBoost-based forecasting engine, and a Retrieval-Augmented Generation (RAG) chatbot using LangChain, Gemini AI, and Qdrant.
- Delivered actionable insights, future price predictions, and natural-language product search capabilities to support data-driven decision-making.

Financial Performance Dashboard | Power BI

[GitHub Repo](#)

- Developed an interactive Power BI dashboard to analyze revenue, profit, and key business KPIs, enabling effective performance monitoring.
- Performed data cleaning and transformation using Power Query and created dynamic visualizations to deliver actionable business insights.

YouTube Channel Performance Analysis | Python, Jupyter Notebook

[GitHub Repo](#)

- Performed data cleaning, exploratory data analysis (EDA), and feature engineering on YouTube channel data to analyze engagement and revenue trends.
- Built a Random Forest regression model for revenue prediction and identified key performance drivers through feature importance analysis and interactive visualizations.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering - Big Data Analytics

2025

Parul University

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Big Data Analytics

CERTIFICATIONS

- Data Analytics Internship Certificate - Unified Mentor
